AUTUMN/WINTER 24

# BRAND INTRODUCTION

Hartwell has always championed the design of modern womenswear for those who love the countryside, even if they don't live there. We produce our exclusive British-designed collections through a small network of hand-picked sustainable suppliers. We aim to minimise our environmental impact and rally against the superficial trend of *fast fashion*.

Welcome to our new Autumn/Winter Collection. We've added new prints, more warm luxury autumnal fabrics, romantic-themed cotton and silk blouses, jacquard skirts, wax-cotton gilets, embroidered knitwear, perfect cut skinny moleskin jeans and much more.

We hope you enjoy the Collection!
